

## Argument in Favor of Measure T

### **Vote Yes on T to fix potholes, repair storm drains, and improve the safety and quality of life in Lemon Grove.**

Lemon Grove takes pride in our family-friendly community. Measure T will continue to improve safety, fix streets, upgrade parks and neighborhoods, and help attract good jobs to our area.

Even as a small city, Lemon Grove has 70 miles of streets, 25 miles of underground storm drains, and 14 acres of community parks and playfields that must be maintained. Aging 50-year-old underground storm drain pipes are starting to fail, which lead to water pollution, and create sinkholes and flooding that can damage streets and property.

Measure T will provide the necessary funds to repair and maintain this public infrastructure. Measure T also helps ensure rapid response to 911 emergencies and make Lemon Grove safer.

### **Vote Yes on T: Keeping Lemon Grove Clean, Safe and Well-Maintained**

- Fix potholes and maintain streets
- Repair aging infrastructure, including storm drains, sidewalks, curbs and public facilities
- Keep local parks, sports fields, playgrounds, and community facilities safe, clean and well-maintained
- Keep trash and pollution out of our local creeks and waterways
- Improve roads, intersections, bike lanes, and signals to improve traffic safety and reduce congestion
- Provide fire protection, paramedic services, and quick response to 9-1-1 emergencies

### **Every Dollar Under Local Control**

- **Accountability:** Citizen oversight, independent audits, and public disclosure ensure transparency in fund allocation.
- **Reinvestment:** Every dime the measure receives stays in Lemon Grove to fund essential services.
- **Protection:** The State or County cannot divert funds intended for Lemon Grove.

The San Diego County Taxpayers Association, which doesn't support every tax or school bond on the ballot, supports Measure T because it's a good plan.

Help improve Lemon Grove now and for future generations! **Vote Yes on Measure T.**
